

Paris workshop on perceptual bistability

July 5 2008, Ecole Normale Supérieure, Amphithéâtre Rataud, 45 rue d'Ulm, Paris

9h50	DP, JLS, JMH	Welcome
	<i>Chairs: C. Machens, A de Cheveigné</i>	Bistable decisions: data and models
10h00	P. Mamassian	Expected utility in bistable perception
10h20	R. Van Ee	Audio-Visual congruency as a mechanism for wilful control over perceptual awareness
10h40	P. Egré	Vagueness and Bistability
11h00	<i>Coffee break</i>	
11h20	S. Denham	Perceptual bistability in auditory streaming: do stimulus features matter?
11h40	J.M. Hupé	Build-up of auditory streaming and visual plaid segmentation as the signature of tristable perception
12h00	<i>Discussion</i>	
12h30	<i>End of morning session, lunch</i>	
	<i>Chairs: M. Chait, K. O'Regan</i>	Attention and non-sensory factors
14h00	P. Cavanagh	Successive rivalry does not occur without attention
14h20	J. Dokic	Bistability and metacognition
14h40	M. Kashino	Non-sensory modulation of auditory and visual multistable phenomena
15h00	R. Van Rullen	The continuous wagon wheel illusion: when attention makes unambiguous motion bistable
15h20	<i>Discussion</i>	
15h50	<i>Coffee break</i>	
	<i>Chairs: R. Cusack, J.L. Schwartz</i>	Levels of processing
16h10	A. Kleinschmidt	Perceptual effects of spontaneous brain activity fluctuations
16h30	J. Lorenceau	Visual bistability of shapes in motion: from brain imaging to pupil dynamics
16h50	A. Basirat	Multistability of speech forms: behavioral and neurophysiological studies using the Verbal Transformation paradigm
17h10	D. Pressnitzer	Sub-cortical contributions to the temporal dynamics of auditory scene analysis
17h30	<i>Discussion</i>	
18h00	<i>End of afternoon session</i>	
19h30	Dinner
